# LP01, YB & YB2 Series

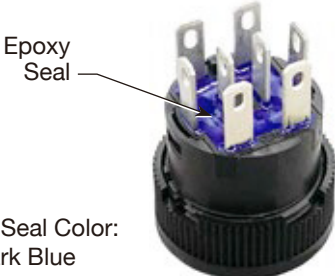

## Changes to Color of Epoxy Seal for Terminals

Type of Change:

- ☒ Engineering    ☐ Part Number  
☐ Product        ☒ Appearance

There will be a revision to the color of the epoxy seal applied at the base of terminals for LP01 and YB2 Series pushbuttons, and YB Series pushbuttons and indicators. This change will effect all illuminated and nonilluminated devices for each of the series. Previously, the epoxy seal had been dark blue for the three series, and it will be modified to black. There will be no difference in the effectiveness of the new black epoxy seal in protecting the terminal base against entry of flux, solvents and other contaminants. These changes will apply to all standard and custom LP01, YB and YB2 switches and indicators.

Effected standard part numbers for each of the series are listed on the following pages.

Series	Epoxy Seal Before Changes	Epoxy Seal After Changes
<b>LP01</b> Illuminated Pushbuttons Nonilluminated Pushbuttons  <b>YB</b> Illuminated Pushbuttons Nonilluminated Pushbuttons Indicators  <b>YB2</b> Illuminated Pushbuttons Nonilluminated Pushbuttons	 <p>Epoxy Seal</p> <p>Epoxy Seal Color: Dark Blue</p>	 <p>Epoxy Seal</p> <p>Epoxy Seal Color: Black</p>
Examples shown are YB Series Pushbuttons with epoxy seal at base of terminals.		

### Notes

There are no changes to the switches' dimensions or specifications.  
 Contact the factory if more details are needed.

### Effective Date

Changes for LP01, YB and YB2 Series Pushbuttons and Indicators will be effective August 2023.
