

Changes to FPC Tails for FT Series 5-Wire Analog Resistive Touch Screens

Type of Change:

- ☒ Engineering
- ☐ Part Number
- ☒ Product
- ☒ Appearance

FT Series Touch Screens will be undergoing changes to plating on the FPC tails. This revision will apply to the analog resistive 5-wire touch screens, including both standard and custom models. The tin plating material on the tails will change to gold plating, which will be a different color, as shown on the following table. The three effected standard part numbers are displayed below.

The Plating Material for FPC Tails of FT Series Touch Screens will be Changing
